BRAND CASE STUDY

Jewelry designed to spark joy.

Gummy Gem Studio is an independently developed jewelry brand built around colorful self-expression, playful design, and the belief that jewelry should feel personal and joyful.

THE CREATIVE VISION

Build a recognizable brand world where candy-inspired color meets thoughtful jewelry design. From original pieces to photography and digital merchandising, each touchpoint expresses the same optimistic personality.

THE DESIGN DECISION

I designed the Gummy Gem Studio logo from scratch, selecting and customizing soft, rounded lettering to reflect the candy-inspired name and the colorful gemstone collection.

WHY THIS DIRECTION

Rounded forms communicate approachability and playfulness. The clean, bold lettering improves recognition, while the signature Bubble Pink and peach color palette gives the brand an energetic, confident presence across jewelry cards, packaging, e-commerce, and marketing.
